AMENDMENT

Director of the U.S. Patent and Trademark Office
Washington, D.C. 20231

Sir:

In reply to the Office Action mailed November 8, 2001, please amend the above-identified application as follows:

IN THE SPECIFICATION:

B1
Fig. 13 illustrates an exemplary functional tangible sensible identification-carrying device 1500. Specifically, the functional tangible sensible identification device 1500 contains a functional presentation or control element identifier 1510. Instead of being linked to a particular presentation element, the control element identifier 1510 identifies a control element to the presentation control system. In Fig. 13, the control element identifier 1510 identifies a function that turns off the sound. In response to sensing the control element identifier 1510, the presentation control system instructs the presentation system to turn off the sound. Figs. 14-18 illustrate other exemplary control element identification cards which the user may generate to facilitate the presentation process.
